FEEDBACK OF EXHIBITORS

“Lumex has exhibited at Analitika Expo since the first exhibition. We announce ourselves as one of the leading analytical instrumentation companies in Russia and it is important for us to make new acquaintances by attracting new dealers and partners. As a result of the first days of the Analitika Expo exhibition, we have many new clients. Organization of the Analitika Expo exhibition is always at a high level. Thank you very much for this!”

Oleg Chulyukov,
COO,
Lumeks

“We have been participating in the Analitika Expo exhibition for about 10 years, we are the permanent exhibitors and always participate with joy. The purpose of our exhibiting is to show new developments and achievements in the field of analytical instrumentation, since we are domestic manufacturers.

This year Analitika Expo will help us in opening new ideas, new doors, getting new customers who will expand their product range. I would like to wish the Analitika Expo exhibition to tune in to future prospects in the same positive way, gather like-minded people in one place and delight us with their presence!”

Egor Chudin,
Technical Director,
Chromos Engineering

“For Millab, the Analitika Expo exhibition is one of the first events, so every year we exhibit at this show. 2022 became the anniversary year for the exhibition and exceeded all the exhibitors’ expectations. As confirmation: the expected organization, an excellent business program and an incessant flow of expected visitors during all 4 days of the exhibition”

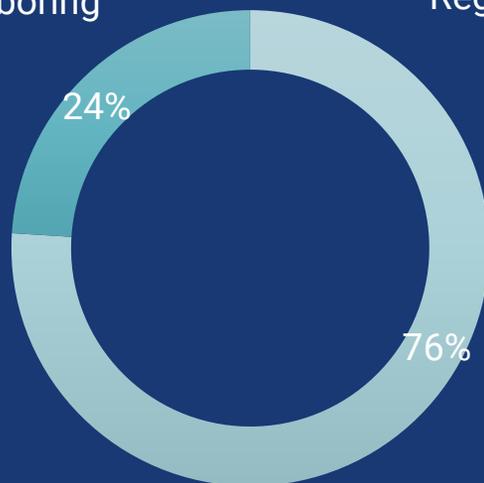

Anna Filippova,
Marketing Manager,
Millab
