EXHIBITOR'S TESTIMONIALS

Zhanna Yarmolchik, Marketing Director, Medindustria Service (Belarus)

Hello! I represent the Medindustria Service Company from the Republic of Belarus. Our company is a developer and manufacturer of medical equipment. We have been on the medical equipment market for

22 years. We mainly produce operating tables and all kinds of device sets that are used in modern medicine. This is our second participation in the exhibitions held in Uzbekistan. We observe a keen interest in our products that are in high demand in Uzbekistan. We are very grateful to all of you for such attention. We have two more exhibition days ahead and we expect that all our equipment will be sold out. Some of the equipment has already been sold today. Our company manufactures equipment that is currently supplied to 40 countries around the world. It is the most advanced and high-quality equipment. The component parts we use are imported from Europe, which is why our products are considered reliable, and the company itself has earned the respect of its customers.

Shokhrukh Mardonov, Head of Sales and Marketing Department, Equimed (Uzbekistan)

Our company is a regular participant in the TIHE exhibition. We are presenting more than 24 types of medical equipment at the exhibition. The equipment is made in China, Germany, India Italy, Korea, and the UK. We consider our participation successful. In the course of the exhibition, we have signed a number of partnership agreements. I believe that we have achieved our goals of finding new partners. We would like to express our gratitude to the organizers of the exhibition. We hope that we will keep on taking part in the TIHE exhibition in the future.

Damin Hwang, Manager, KOTRA (South Korea)

This year we are taking part in the exhibition with 32 companies. Our mission is to help attract companies from Korea to enter new markets; presently, it is the market of Uzbekistan. KOTRA is a global network with 125 offices around the world. This time, our stand is twice as large against that of the previous year, since at this exhibition we represent many Korean companies that are interested in exporting their products to Uzbekistan. For us, the exhibition is definitely successful. We have met many local business representatives and buyers. We plan to participate more extensively next year involving even more companies.

Zinkl Veronika, Organizer of German Pavilion, Nurnberg Messe

Welcome to the German pavilion at TIHE 2022! This year, five companies represent Germany in our pavilion. These include ROHDE, MIPM, HEEL, ASCLEPION, and DRAEGER. All these companies are very happy to be exhibiting here and are satisfied with the level of organization and the target audience of visitors to the exhibition. We look forward not only to effective cooperation this year but also to participating in the next year's exhibition.
