- Chamber of Commerce and Industry of the Republic of Uzbekistan

## Trends

- According to the Healthcare Development Concept of Uzbekistan for 2019-2025, the creation of high-quality healthcare system ensuring health improvement and conditions for raising a healthy generation, is a priority of the state policy.
- Development of private healthcare system, public-private partnerships and medical tourism, creation of favourable environment and better competition for the wide attraction of investments in the healthcare sector.
- Further development of the pharmaceutical industry, harmonization of registration procedures for new medicines, medical devices and equipment with international standards, improvement of pricing mechanisms, expansion of both volume and range of medicines, medical devices and equipment, implementation of their labelling and tracking systems.
- Broad introduction of e-health systems, development of information systems and databases integrated on the basis of the unified national standards.
